HORIZON to HORIZON . . . no this is not just related to us — the year-book staff . . . all of us at YCP have a claim to this phrase . . . a HORIZON is defined as a meeting between two things . . . when we look at where we are and think of where we want to be — we are thinking in terms of HORIZON to HORIZON . . . this is exactly what we, the 1982 HORIZON staff, have in mind for the present yearbook . . . we want to strive for an even higher niche in photojournalism . . . but then again, all individuals and organizations at YCP have the desire to achieve greater feats than their predecessors did . . . so, our goal is to cover as effectively as possible all of the efforts of everyone at YCP in achieving their venture from one HORIZON to a new HORIZON . . . . .

..... the first way to show these efforts is through the involvement of individuals ... through the many activities which happen at YCP ... whether it be playing football ... or enjoying the semi-formal ... or being student body president ... socializing in Campbell ... participating in a mock debate ... studying ... singing and dancing our hearts out ... cramming before an exam ... or many other events ... we are certainly a student body that is always involved .....

... and then we have our administration ... they too are involved ... 1982 proved to be a year of recognition for work well done ... Dr. Frank P. Mussano was appointed as Dean of Student Affairs ... Cathy Velez was also appointed to a new position — Director of Student Activities ... with these appointments came new responsibilities, new hopes, and many new goals ... but we the student body at YCP are proud and secure to have Cathy and Frank in these new positions!

..... 1982 ... a new year and new experiences ... new faces in all the old places ... what were some of these new happenings? ... for some just being on YCP's college campus ... for others, being in different roles than the year before ... some of us found new reading material, but would Mom approve ... many became regulars in the Pub ... others started relationships — and even got caught ... some let their frustrations out on the athletic fields ... others tried to look like professional salesmen ... and even a few of us took time to enjoy our surroundings on a nice day ... but we all existed at YCP in a way that made us learn at least one new thing about ourselves .....

... some of us learned many things in our classes ... like how we love Chemistry ... that we are really in the wrong major ... or that we are still subjected to courses that we will never need ... but then some of us learned that we have a natural talent ... be it piano playing ... or be it just having a good time at a party ... and then some of us will never have the finesse of others ... like those of us who want to play pool — how about it Karen? ... but all of us at YCP give it our best ...

... for most of us at YCP, our main reason for being here is for our future ... we are preparing ... some will be future politicians ... some want to be married to that special someone ... office jobs are another goal ... corrections is a big area of interest to many YCP students ... many of us women just want to be able to be self-sufficient ... and some of us want the chance to break into the publishing world ... no matter which of these goals we had, we prepared ... now we realize that preparation was an integral part of our lives ... without all of it, we would have nothing ... but we do .....

..... we have our memories ... December 1982 ... the Winter Formal ... Sue Clark was crowned Queen ... more organizations were represented this year than ever before ... Tim even took time to put a suit on ... new relationships began ... old ones continued to grow ... many indulged in the spirit of the evening ... everyone had a good time ... oh did we ever have memories of that night ... we could only wish the Spring Formal would come soon .....

Winter  
1982  
What a

... FUN ... that's exactly what everyone looked for in 1982 ... if we couldn't find it, we made it ... be it with our friends ... or with new acquaintances we happened to meet ... these new faces quickly became old familiar faces ... one sure place to see these faces was at MURPH'S ... almost everyone goes to YCP's favorite hangout at one time or another ... I guess you could say a binding trait of this year's student body was that we all wanted to have a good time! ... we were determined to ... maybe different means of doing so ... but the goal was the same ... 1982 proved to be the year of pleasure-seeking through many activities and events!

# President Iosue: Five Years of Progression

President Robert V. Iosue

On November 18, 1982, the Horizon staff was afforded an interview with President Iosue on the occasion of his fifth anniversary in office. Here, we met a man of many facets; a man of dreams and goals; and a man who has pledged himself to the continued progress of York College.

As President, Dr. Iosue has seen masters level work become a fact. The MBA program has grown strong. Under his direction, a four-year nursing curriculum has grown, and this year, a computer information systems program has evolved. Also, a sound minors program has been developed. He continues to promote a strong, pre-determined core of liberal arts which is required by all majors. In this area, he gives credit to the firm support he enjoys from the faculty. Also, a further achievement during his term has been the affiliation of York College with other schools, notably Columbia University School of Engineering, American University, Villanova, and the University of Pennsylvania.

Dr. Iosue's goals for the future are both personal and professional. Professionally, he looks forward to additions to and the enhancing of the academic programs. His admitted personal goals are to see York College more widely recognized throughout the country, and to see York College gain admission to the Mid-Atlantic Athletic Conference.

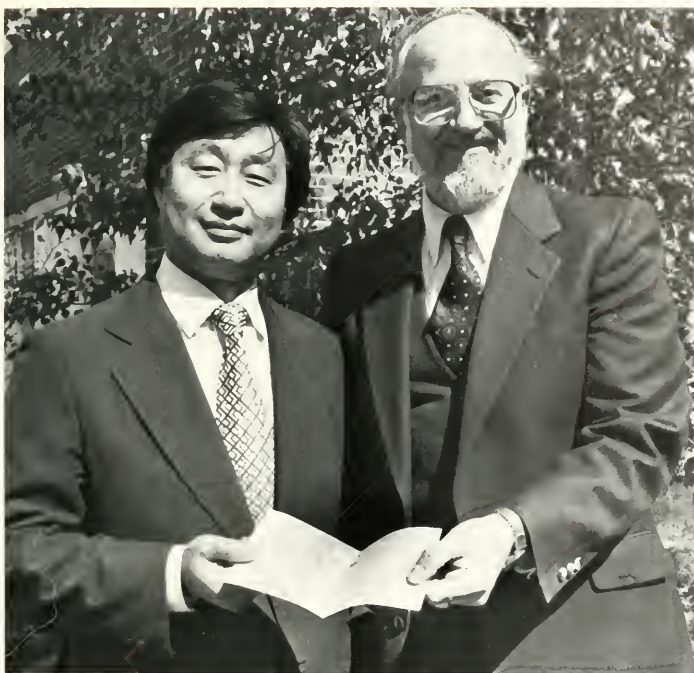

There is also Robert Iosue the fund raiser. A strong endowment program is a must, and in this area he is a tireless performer. His goal — an endowment program that equals a one year budget.

Finally there is Robert Iosue the teacher. He does not maintain an aloof distance from his students. Dr. Iosue still finds time to teach a math class every semester. He speaks with enthusiasm of working with his students.

Under the direction of Robert Iosue, York College will continue to grow; and it will be a place where the students may grow also.

## *A New Face in YCP's Administration*

Dr. Frank P. Mussano, former Director of Student Activities at York College, has been named Dean of Student Affairs. Dr. Mussano replaced Dr. Richard Call, YCP's Dean of Student Affairs for the past nine years, who accepted a post as Vice-President of Student Affairs at the State University of New York at Delhi.

In his new position, Dr. Mussano is responsible for the management, coordination and supervision of the Division of Student Affairs at the College, which includes the planning, direction and administration of all facets of division services and programs. The YCP Division of Student Affairs includes financial aid, residence life, student activities, counseling and testing, career planning, placement, health services and intercollegiate athletics.

Dr. Frank Mussano came to York College in February 1974 as the Director of Residence Life. He assumed the duties of Director of Student Activities in 1977, where he was responsible for all non-academic student programming. Prior to his experience at York College, he served as a vocational evaluator and coordinator of research at the Rehabilitation and Industrial Training Center of York.

He holds a bachelor's degree in education from the Pennsylvania State University, a master's degree in counseling and personnel services from the University of Maryland, and his doctorate in community college administration from Nova University.

## Talent Through Pride

One may try to guess a man's nationality by his name. Guessing with Professor Hosch would cease the moment he spoke, for his rich German accent immediately reveals his homeland. He's an exciting person to listen to; he has a wealth of knowledge about German culture; also, a deep pride in his heritage as his office walls reveal.

In 1966, when York College was in the process of expanding from a two year college to a four year college, Herr Hosch paid a visit — "out of curiosity." And now we know where this has led!

As Herr Hosch and his family settled in the area, he became very aware of the cultural similarities between his German hometown and Seven Valleys, Pa. The farmland and the language dialect was identical.

In 1978, Herr Hosch translated some old Pennsylvania Dutch documents for the community of Seven Valleys. One manuscript led to another and Herr Hosch became involved in the research of the history of Seven Valleys. This led to the writing of several articles on the Pennsylvania German people. Mr. Armond Gladfelter was so impressed that he asked Herr Hosch to write the foreword to Volume 2 of the history of Seven Valleys. Herr Hosch states he "fell in love with the community . . . that he feels like he's lived in Seven Valleys for 250 years."

In 1981, Herr Hosch was asked to be a feature speaker at the town's festival. In honor of the occasion he wrote a poem and set it to music. But the community also had a present for Herr Hosch, the song was adopted as the official song and he was also made an honorary citizen of Seven Valleys.

Herr Hosch — we may guess your nationality, but your many facets are an interesting surprise to us!

## Goals — Achieved Through Change

"What is your major; what are you going to do after graduation?" These are the questions asked of all students. By the time you've reached your senior year, the goals are usually clear-cut — changing boats in mid-stream is usually for freshmen.

David Polk always wanted to be a doctor — "loved science — still do." His first two years of undergraduate work were spent at Columbus; the last two years at Baldwin-Wallace in Berea, Ohio. Dr. Polk was a pre-med biology major, and had even applied to medical school. Then two quarters before graduation, "I looked around at what I was doing . . . thought I was missing something in life." With all of the social unrest of the sixties, he felt his sociology courses seemed to offer solid theories and concepts; the sociology professors "seemed to be relevant people." Dr. Polk graduated from Baldwin-Wallace in 1970 with a B.S. in biology, and a decision to pursue his study of sociology.

With the universal requirement of students — a need for money, he approached Kent State, speaking to the Chairman of the sociology department. The end result was an assistantship to the Assistant Director of cultural languages, and a return to studies.

Graduation with an M.A. in 1972 brought him face to face with the initial question of what do you do after graduation. He began applying to various social agencies. Then he heard that York College of Pennsylvania was looking for a sociology professor. Dr. Polk has filled that position since September of 1972.

His active intellectual curiosity — "I love learning about things" — keeps him a perpetual student. Since 1973 he has been working toward his doctorate at Catholic University; this also has become a reality.

He enjoys academic research, and looks for ways to ignite the interest of his students. By applying his knowledge outside of the classroom he is able to return with results that make sociology real to his students. His academic research deals with sociology of religion. For social agencies such as Catholic Services and the Children's Home of York, he deals with program evaluation — are they effective and accomplishing what they are supposed to. In the field of marketing research, he recently worked on a survey in conjunction with the York Fair to determine exactly what shows people wanted to hear in the grandstand. Dr. Polk says, "Sociologists prove the obvious." Armed with his discipline and its proofs, he returns to his students to show them how it works. His role of devil's advocate in the classroom leads to many lively and exciting discussions; his way of encouraging intellectual curiosity.

What are you going to do after graduation? Dr. Polk has shown us the choices are many.

## *Life Outside the Classroom Walls*

When a student needs to escape from the tensions within the classroom, it's nice to know that there are places to go and people he or she can be with that are not associated with the academic world of York College. The groups pictured here strive to meet this goal in the activities they plan and participate in.

Activities scheduled during September and October at York College were aimed at promoting new and old friendships. Events such as Playfair, during freshman orientation, the Concert Series, featuring Dizzie Gillespie in September, and the Sixth Annual Talent Show gave students time to get to know one another. Organizations also sponsored many events which served as icebreakers, such as the Formal, featuring Push, and Bingo. September and October marked the beginning of a new school year and the beginning of many new friendships.

## *In Memoriam*

### *John Clarence Olson*

Upon returning from Christmas break, we learned of the death of a fellow student, JOHN CLARENCE OLSON.

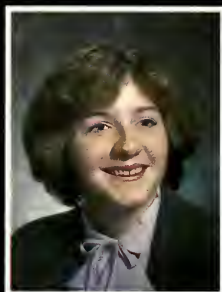

Over Christmas break, John and a friend were involved in sky diving exercises at a small Miami, Florida airport. On Saturday, January 2, 1982, John's parachute malfunctioned, and he was killed immediately upon impact.

John Clarence Olson was born April 5, 1960 in Camden, New Jersey. He was a full-time senior enrolled in the police science curriculum, and would have been a member of the graduating class of May, 1982.

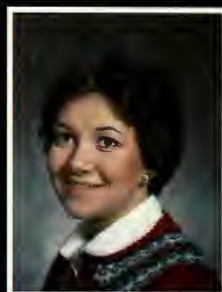

The HORIZON staff would like to take this time to extend our sympathy to Mr. and Mrs. Carlton Olson and their daughter, Nancy. Also, we would like to extend our condolences to all of John's friends who came to know and love him here at YCP.

Now that our four years at YCP are completed, we look back and have very many memories. For some of us they are all of our friends and for some it is all of the good times and parties. But one thing is for sure, it was really hard for every Senior to think of just the best memory here at YCP! This was our home and life for four years and I'm sure all of us will miss the good times we experienced here. So, just what were the best memories of the class of 1982?

"The sorority . . . 237 . . . Keghoses, Brello, and Hosey" . . . Karen Rose

"Going out to eat with Dugan." . . . Florrie Miller

"It's so easy! The first party of my freshman year. September 7, 1978. I met my girlfriend — Lori!" . . . Chris Gowen

"Activities in Student Nurses Association." . . . Patricia Grimmel

"Pledging Omega" . . . Alon Heinle

"Intramurals and socializing in the library." . . . Janet Hennigan

"Cofeteria foodfights." . . . Terry Herblin

"Doing doughnuts on the athletic fields with B.C." . . . Tom Downey

"Jackson Street" . . . Helen Eline

"'78-79 Coed Marie Kettermon Dorm" . . . Eileen O'Forrell, Jeon Connelly, Jim Sclafoni, Kathy Dugan, and Tom Shay

"WVYC — the radio station!" . . . Jim Bedrosian and Darrell Bowman

"TMI holdioy!" . . . Marcia Bowman

"Omega volleyball marathons" . . . Roseonne Galcius

"Intervarsity" . . . Vicki Scheib

"Baseball season of 1981, especially upsetting a seeded team in the playoffs in May." . . . Tim Stefan

"It will be the day I graduate." . . . John Williams

... and that's not all! The Seniors still had more to say .....

"Thursday nite at Murph's" ... Sue Ivey, Lisa Voerman, Guy Miller, Jeanne Marcotte, and Tom Jones

"Beard Hall '79-80" ... Jane Ferguson

"Phi Sigma Chi" ... Marie Burns, Janis Groft, and Denise Klebash

"Spunky's Togo Parry" ... Angelo Ferri, Chris Lynch, Nancy Pedlow, and Brian Forde

"He-Men Women Haters" ... Jeff Rutter

"The 5 a.m. 'UNO' games and singing out the windows at Ketterman" ... Wendy Shannon

"Learning how to study and how to walk towards my own benefit." ... Teresa Frawley

"I was so drunk I can't remember!" ... John Schenck

"Learning actually who I was and that I wasn't an extension off of someone else. I came into my own in my own way!" ... Robin Shadle

"Taking my last math course!" ... Bob Rigby

"Meeting wild man — Mike Sagan" ... Deb Rorabaugh

"Pledging a fraternity in my Senior year — better late than never!" ... Tom Williams

"Opening night of the musical 'CARNIVAL!'" ... Barry Strehl

"Pledging Alpha Theta Chi" ... Karen Magri

"Standing in the water fountain for pledging and living at 237" ... Kim Agett

But most of all, we all agree that our memories were made because of our friends!

And let's not forget why we came to YCP in the first place. We all came to get our degree! And the only way we could do that was to attend many lectures by our superb faculty. After the four years of instruction, all of us have had a favorite professor with whom we took several classes, and now we would like them to know that we did appreciate their efforts. Just who were the favorite professors of the class of 1982?

"Drs. Osman, Guidara, and Ames — they are role models" . . . Prudence Aliminosa

"Dr. Hall — he was always there when I needed him" . . . Diane Bidun

"Mr. Culbertson — he's my DAD!" . . . Brian Culbertson

"David Palk — his classes are challenging and his is concerned about the students" . . . Lorraine Burr, Cherie Green, and Deb Starr

"Dr. Ashbaugh — because he requires that a person reach for her limits" . . . Jacquelyn Graybill

"Kathy Brace — she can make the most boring subject interesting! Kathy, you're numero uno!" . . . Catherine Sweitzer

"Fred Gaschen — good Family Feud player" . . . Dorothy Adams

"Mrs. Kasputis — helped me to see how I've grown and that I have much more room to grow." . . . Rebecca Bange

"Dr. Avillo — he made me realize how important education is!" . . . Sue Ivey

"President Iosue — for his caring and friendship" . . . Nancy Concannon

But once again, the Seniors had a lot of favorites and for a lot of different reasons. But then again, after four years we feel we have every right to tell these few faculty members that they're doing a great job. So, here we go .....

"Fred Gaschen — very understanding and helps us as much as possible" ... Tina Surace, George Mitro, and Mike Bollinger

"David Polk — he's gorgeous!!!" ... Rita Richie

"I like Dean Barnard because he is extremely tough and bullheaded, but I respect him for that. Also, I envy Otto Tomosch. His artistic ability is outstanding!" ... Teresa Frowley

"Marry Devers — you tell me why!" ... Jim Sclofani

"Kathy Brace — I regard her highly because she gave me the thing I needed most — the love of learning! Thank-you for the biggest gift a professor could give a student. You're terrific!" ... Robin Shadle

"Tom Lepson — damn good, but tough!" ... John Schenck

"Dr. Carl Harch — he's unpredictable!" ... Eileen O'Farrell

"Arlene Dech — because of her sexy Gucci sweat-pants" ... Jeff Rutter

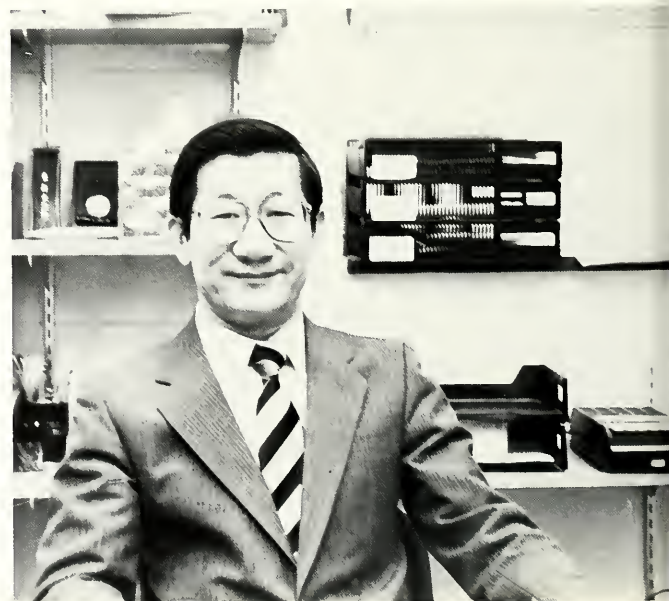

"Dale Sauers — He's very dedicated and really cares about his students." ... Deb Rorabaugh and Bill Mock and Kate O'Donnoghue

"Dr. Suk — Not only is he interesting in class, but his willingness to help the students is unbelievable!" ... Vonnie Sprengle

"Dr. Diener — he cares about his students as poeple — not just as students" ... Roseanne Galcius and Karen Kull

"Dale Sauers — he gave encouragement at the right time!" ... Bob Louver

"Dr. Terry — he's tops in his field and yet he relates to the students on their level." ... John DeMartini

Harry Chapin, was 38, a popular folk-rock singer, was killed in an automobile accident near his home in Long Island, New York on July 16, 1980. Chapin was a troubadour for the aging 60's generation, performing his own 'story-songs', narratives describing poignant tales of missed opportunities and disappointing loves. Harry Chapin was also an activist for environmental, consumer, and theatrical causes.

— reprinted from  
the Saturday  
Evening Post —

"But music was his life, it was not his livelihood, — and it made him feel so happy — and it made him feel so good. And he sang from his heart — and he sang from his soul. He did not know how well he sang; it just made him whole."

York's soccer team did not fare as well as hoped after last year's highly successful year. The 1982 team had only one member returning from last year's strong defense; thus, they relied heavily this year on new people to keep the ball out of the net.

In ten games, York lost seven by one goal and one in overtime. When a team loses so many by so little, the term 'snake bit' is brought up. And with the team having the thought in their head, they were responsible for many mental errors.

However, the team rallied back in the game against Millersville and shut them and the next opponent out!

Maybe the season was a disappointment, but the players have to know that deep down in their hearts they gave it one heck of a shot.

This year's cross country team allowed its record to speak for itself. Posting 14-6 mark, the men had one of the best seasons ever at YCP. But the high point of the year was a fourth place finish at the Mason-Dixon meet. This is usually dominated by perennial powers, but YCP hung tough and beat some of the favorites.

Strong performances were shown by Stella, Mingora, Sagan, and Scifers. But the whole team admits that this year it was a 'team effort year.'

YCP also had a women's cross country team to be proud of this year. Despite turnout problems, the women made a significant improvement over the past year. This group was the hardest working group ever, and the competitively oriented. Coach Jaquet credits Darla Berkowitz with influencing the good attitudes of the others.

But the biggest mark of this season was that in 1979 a goal was set to have a woman break 21 minutes on our course, and the first five finishers of this year all broke the time. So, watch out next year, the Spartan harriers promise to be even rougher.

*November . . . December*

By the time December vacation arrives, many students are ready for the break from classes and studies. It is a time when they can spend time with their families and their friends back home. It is also a time to catch up on the sleep that was lost during the course of the last semester.

The end of the year is always welcome. Even though it means saying goodbye to friends, perhaps forever, it always feels good when you know you have taken your last final and have typed your last term paper for the year.

Yearbook epilogues usually fall into one of four of the following classes: a chronological breakdown of the year, massive bits of thank yous, philosophical reflections, or a last-minute vent of revenge. Considering it's four o'clock in the morning and I'm having the whole year of memories flashing in my mind, I'll probably be hitting all four classes.

First of all, I thought I was finally finished, but I was wrong, I still had to write this final note. So here goes —

The 1982 HORIZON is being presented to you as a means of reliving the past year. We, the staff, hope we have captured as much of the year as possible. Many hours have been devoted to this edition of the HORIZON. This book was a major concern of *MANY*, but in reality it is only an accomplishment of a *FEW*.

Few people even begin to comprehend the huge amount of work and time that goes into the production of the HORIZON. To all the 1982 staff members — this book is yours!

There definitely were certain people who were integral forces. I want them to know who they were and why.

Teresa, your hours of hard work cannot pass without recognition. Be proud of the work you did! I love you dearly as a friend, and I'll miss your go-for-it attitude. Thanx for everything.

Kimmy and the 81-82 Senate, your friendship and support gave me a lot of drive when the going was rough. Thanx!

Cathy V., what can I say? Thank you for putting up with me.

Jean-Marie: you were always there when we needed you! (even when you were sick, hung over, or busy) Thanx!

Mel, Susan, and Mari-Anne: you all contributed in a very special way.

Also, Deb, Jerry, and Stacy — thank you for your assistance.

Guy Miller and Cindy Reilly: thanx for the laughs you supplied during the year. Take care of yourselves!

To the seniors of May 82: you have a lot to be proud of. Next year's class has a hard act to follow. Good luck in whatever you do!

And Ed Patrick, you weren't just our rep from TPC, but you were a friend. Thank you for everything!

Most of all, Mom and Dad, thank you for the push you gave me when I left MSC two years ago. I hope you're proud of this endeavor; I owe it all to you.

It's done. I'm finished and I'm glad!
